Quarto enables you to weave together content and executable code into a finished presentation. To learn more about Quarto presentations see <https://quarto.org/docs/presentations/>.

When you click the **Render** button a document will be generated that includes:

- Content authored with markdown
- Ha!

When you click the **Render** button a presentation will be generated that includes both content and the output of embedded code. You can embed code like this:

```
1 + 1
```

```
# very long line with much code that could go into 2 rows if the screen is not large  
↪ enough, if the font size is small, it would go beyond the right margin
```
